

POWER IN THE VIRTUAL SPACE

COMING SOON!!!

We have embarked on a **research project** about:
“POWER IN THE VIRTUAL SPACE”

We explore questions such as:

- What makes it that a person has power in the virtual space or not?
- What are typical behaviors dis-empowering others virtually?
- Are virtual psychodynamics related to power similar or different from face-to-face situations?
- How can leaders exercise productive power in the virtual space?

Over 15 global companies (corporate and public organizations) with senior leaders from all continents are **involved in the research.**

ARE YOU INTERESTED???

You are welcome to **join the research group** if you lead others virtually. Please contact Ghislaine Caulat (ghislaine.caulat@black-gazelle.com) so that she can send you a briefing document about the research process.

In return for your, **time investment (approx. 10 hours distributed on 4 months)** you will receive the results of the research on a complimentary basis for your direct use in your virtual work.

If you have no time to invest but would like to receive the results of the research, please send us an email at support@black-gazelle.com and we will be delighted to send you these after completion.
